Torque Tool Testers Series TT02

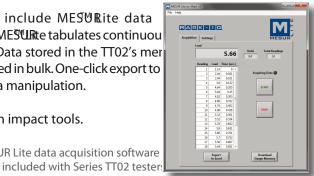

Series TT02 Torque Tool Testers present a simple and accurate solution for testing m electric, and pneumatic torque screwdrivers, wrenches, and other tools. These t are compact and rugged, suitable for production environments. A universal 3/8" receptacle accepts common bits and attachments. The TT02 captures peak torque measurement directions, and also calculates 1st and 2nd peaks, useful for click-type

A blazingly fast sampling rate of 7,000 Hz and accuracy of $\pm 0.3\%$ produce reliable consistent test results. The TT02 includes a range of sophisticated productivity-enhance features, including USB, RS-232, Mitutoyo, and analog outputs, automatic data or zeroing/data storage upon tool slip or click, memory storage for 1,000 readings, pa indicators and outputs, and more. Password protection is provided to prevent unau changes to settings and calibration.

Series TT02 testers include MESURite data acquisition software. MESURte tabulates continuou or single point data. Data stored in the TT02's mer can also be downloaded in bulk. One-click export to allows for further data manipulation.

Note: Not for use with impact tools.

MESUR Lite data acquisition software

Features

- First / second peak capture for CW and CCW directions
- 3/8" square receptacle accommodates common bits and attachments
- High-speed 7,000 Hz sampling rate accurately captures peak torque values
- 1,000-point data memory with statistics and outputs
- USB, RS-232, Mitutoyo, and analog outputs

- Break detection: automatic output, data storage, and zeroing upon tool click/slip automates testing processes
- Programmable set point indicators and outputs for pass/ fail determination
- Password protection prevents unauthorized changes
- 5 selectable units of measurement
- MESUR[™] Lite data collection software included

Controls & Indicators

Torque Tool Testers Series TT02

Optional Items

■ AC1026-1 Rundown fixture Helps capture readings for electric and pneumatic tools f 0 to 50 lbFin [0 to 5.7 Nm]

■ AC1026-2 Rundown fixture Helps capture readings for electric and pneumatic tools from 50 to 100 lbFin [5.7 to 11.5 Nm]

ST001
Bench mounting kit
Mounts the TT02 securely to a bench for horizontal orientation.

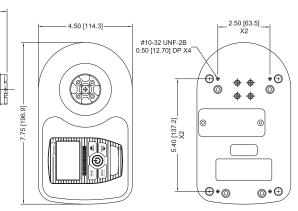

Carrying case
Provides storage space for the TT02 tester, rundown fixtures, bench mounting kit, AC adapter, and accessories.

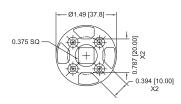

Specifications

Specificat	10113	
Accuracy:	±0.3% of full scale	2.92 [74.2] — 2.40 [61.0] —
Sampling Rate:	7,000 Hz	2.40 [01.0]
Power:	AC or rechargeable battery. Multi-step low battery indicator is display tester shuts off automatically when power is too low.	ed,
Battery life:	Backlight on: up to 7 hours of continuous use Backlight off: up to 24 hours of continuous use	
Units:	ozFin, lbFin, kgFcm, Nm, Ncm	
Outputs:	USB / RS-232: Configurable up to 115,200 baud. Mitutoyo: Serial BCD suitable for all Mitutoyo SPC-compatible device Analog: ±1 VCD, ±0.25% of full scale at capacity. General purpose: Three open drain outputs, one input. Set points: Three open drain lines.	es. 0
Configurable settings:	1st/2nd peak, digital filters, outputs, automatic shutoff, default setting tones, backlight, audio alarms, passwords, calibration	gs, key
Safe overload:	150% of full scale (display shows "OVER" at 110% and above)	
Weight:	5.8 lb [2.6 kg]	
Included items:	1/4" hex to 3/8" square adapter, universal voltage AC adapter, battery start guide, USB cable, resource CD (USB driver, MESLIR software, MESURMgauge DEMO software, and user's guide), and NIST-traceable certificate of calibration (cert with data is available for an additional c	•
Environmental requirements:	40 - 100°F, max. 96% humidity, non-condensating
